DETAILED ACTION

This is a first action allowance for application no. 10/022789 filed on December 17, 2001 in which claims 1-16 were presented for examination.

Allowable Subject Matter

Claims 1-16 allowed.

The following is an examiner's statement of reasons for allowance: The following is an examiner's statement of reasons for allowance:

The present claims include novel and unobvious features in that the examiner was unable to find in several prior art searches. Specifically, the claim requires the use of motion activity descriptors to identify a talking face. The motion activity descriptors required by the claims is taken to be the MPEG-7 motion activity descriptor. This is the only motion activity descriptor described by the disclosure (Page 8 Line 15-Page 9 Line 14, Page 11 line 19 and line 24). These features taken with the others in the claims define over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
